Dated 6th July 2018.

To whom it may concern

The Water Audit Experts – H2O Building Services.

Water audit experts H2O Building Services were engaged to help us reduce our water and wastewater costs.

Having supplied them with copies of our water and wastewater bills, they produced a preliminary desktop water audit report giving us an estimate of the potential savings and refunds they could achieve.

We then commissioned them to carry out their recommendations and on completion return substantial savings and refunds to the business. This has been achieved with great success and our wastewater charges alone have been reduced by 88%.

We would not hesitate to recommend them.

Sincerely yours,

James Brand
Managing Director (Foundries)
